

Clay roof tile specification

featuring natural clay roof tiles and their specification

CPD Content

- Introduction to Edilians
- Evolution of clay tiles
- Production improvements over the years
- Understanding key design considerations
- Compliance with latest BS 5534 fixing guidelines
- Case studies
- Questions

Learning aims:

This CPD presentation provides a valuable insight into how modern production techniques have advanced clay tiles. Importantly, it provides an understanding of the key issues involving the specification of a clay tile roof, in particular, how to ensure compliance with the current BS 5534 Standard.

CPD duration: 45 minutes
Buffet and refreshments provided
